Hillcrest Defeats

Blairmore by 4-1

On Monday evening the Blairmore football team visited Hillcrest and played what all consider to be the most crucial game of the season. The weather was perfect, the rain having stopped early Sunday morning and thanks to a high wind that seemed providently sent for that particular purpose, the ground upon which the game was played was in first-class condition. Taking advantage of the fine evening after the month of wet weather we have been having many Blairmore people avail themselves of this opportunity for a drive. Blairmore showed their interest in the game by coming over in large numbers and quite a few spectators hailed from Frank and Burnis. Needless to say practically the whole population of Hillcrest was toeing the side lines.

The game was scheduled to start at 7 sharp, but owing to a delay in the arrival of the visiting team the ball was not kicked off until half an hour later. Blairmore won the toss and elected to kick down hill, and Hillcrest kicking the ball off at once started playing a public game. They did not go far before they lost the ball to the Blairmore men and by dint of making some pretty plays in the passing line the visiting forwards were soon giving the home team's defence all the exercise they wanted. The Hillcrest boys are some kickers, however, and soon the ball was returned to mid field, where it remained for a period of about ten minutes, during which time neither team seemed to have the advantage. Hillcrest finally got the ball on the go and after some particularly pretty work with both heads and feet managed to score, Grimshaw placing a pretty shot past M. Garry. The ball being set in motion once again Blairmore pressed the Hillcrest backs for some considerable time, but their defence is the pride of the Hillcrest team and they were unable to do any damage. Several times they shot, but Crowther was playing a really good steady game and their attempts were all in vain. At last the backs placed the ball with the forwards and the Blairmore defence had their share of the work. They proved to be less impregnable than the home team's defence, however, and after five minutes play in the visitors' half of

the field another goal was scored against them, this time by Rochester who made a fine run down with the right wing "a" team. In the next half time was called with the score standing 2-0 in favor of Hillcrest. Upon play being resumed after half time Blairmore seemed determined to make things a little more level and really bombarded the Hillcrest goal in a way that would have broken down any weaker defence. Some fifteen minutes after half time they scored a well earned goal. From this time on Blairmore played for all they were worth and looked at times as though the game would end up in their favor, the forwards especially playing well. Their wing passing was something to admire and continually beat the Hillcrest men. But the Hillcrest forwards getting hold of the ball once again they made a dash towards the lower goal and Grimshaw scored after some quick foot work. In spite of the three goals now registered against them Blairmore did not lose heart, but played along faster than ever, endeavoring to get past the home team. In the gathering dusk the spectators to see just exactly what took place, but the referee gave a penalty kick against the home team that aroused the ire of that team's supporters. But he was right there and was placed there to see to little matters of this description and we believe the penalty was given fairly enough. Russ kicked but overbore the goal quite a piece and from the ensuing goal kick Hillcrest made a run and changed the scene of operations to the visitors' half. They were unable to score in spite of the fact that the Blairmore goal-keeper apparently lost his nerve for a few minutes, and every now and again the dangerous forward line would remind Hillcrest that they could not expect to have the game entirely to themselves. A few minutes before time was called Hillcrest added yet another goal to their score, making a total of 4-1 in their favor. It was almost dark when time was finished, and many of the spectators requested the referee in no gentle tones to call the game on that account, but he decided the light would be good enough to finish the game and acted upon that decision.

The line up was as follows:
Blairmore—Goal, M. Metcalf;

Happenings in and Around Bellevue

J. North, of Parkland, passed through on Tuesday night.

Mr. Fleuter, of the West Canadian Collieries Co., was in the camp last week.

Rev. W. T. Young and wife, of Frank, were in the camp last Wednesday.

Fred Paiget has been transferred by the C.P.R. from High River to Wardour.

Mr. Madison returned from attending the funeral of his father in the States on Monday night.

A large number of Bellevue sports took in the Hillcrest-Blairmore football game at Hillcrest on Monday night.

The Bellevue-Michel football match slated to be played at Michel last Saturday was postponed owing to the dismemberment of a member of Bellevue players.

Preparations are under way for the big garden party to be held in Bellevue on Monday evening next, weather permitting. The Bellevue brass band will render music throughout the evening. No admission fee will be charged but patrons may purchase badges as souvenirs of the occasion. The proceeds will be divided between Bellevue and the Ladies' Aid of the Methodist church. Everybody should support these two worthy enterprises.

Notes From Burnis

Mr. and Mrs. L. C. Stevens were week end visitors to Taber.

Inspector Belcher of the R.N.W.M.P. Police was in Burnis this week on his monthly inspection.

L. C. Stevens and J. W. Skilling were the Burnis representatives at the Southern Alberta League meeting held in Blairmore on the 12th.

Miss M. A. Murphy left town this week to take up her abode in Lethbridge.

Mr. and Mrs. Thomas, of Passburg were visiting friends in town this week.

Thos. Sloan is contemplating taking a trip to his old home in Scotland about the end of the month.

George Pounder and Ben Reever took in the O. angensmen dinner in Pincher Creek on the 12th.

Mrs. Geo. Hope and daughter took in the sights of Coleman this week.

Mr. and Mrs. P. Kahan and family have left town and gone to Passburg to reside.

T. Weaver, J. Oakley, E. Oakley of Coal Creek have taken up their residence in Burnis, and are working on the new hotel.

The Little Burnis football game that was played in Burnis on the 10th, is scheduled to be re-played in Frank on the 20th.

A pony race has been arranged to take place at Passburg on the 22nd between George Carson's pony Queenie and E. Glover's pony Nellie over a quarter mile course for \$150 a side. We look to see the Burnis horse win this race, so don't disappoint us, George.

Quite a large number of Burnis people took in the sports at Beaver Creek on the 12th, and report having seen an enjoyable day. In the open pony race Jim Eddys horse Belle from Burnis won, beating Chappell's Mare Queen of the Woods from Bellevue by several lengths.

Backs, W. Love and A. Foulds; Half backs, A. Lambrecht, W. Moody and H. Pinkney; Forwards W. Russ, J. McAndrews, J. Kennedy, D. Fraser and D. Dunlop. Hillcrest—Goal, A. Crowther; Backs, A. Wicks and Adlam, Half backs Jno. Petrie, Ben. Cairnes and A. Watson; Forwards, Fred Taylor, Grimshaw, W. Rochester, J. Knowles and Len Adlam.

A special meeting of Blairmore Lodge, No. 68, I.O.O.F., is called for 8 o'clock tonight, for the purpose of installing officers for ensuing term. A full attendance is requested.

Mr. L. S. Gow, manager of the Spectator at Metchosin, paid a fraternal visit last evening, and left for home on the noon train today.

Development At Hillcrest

Since the new tipple at Hillcrest was put into operation a few weeks ago the town has been enjoying a period of activity never before equaled during its history. The tipple itself is one of the masterpieces of modern engineering and is well worth a visit. The tipple was erected last winter, the Webster Manufacturing Company of Tiffin, Ohio, being awarded the contract, this company letting out another contract for the erection of the superstructure and housing of the machinery, to the Ottumwa Box Car Loader Company of Ottumwa, Iowa, the Webster people installing all the necessary machinery for the tipple and retarding conveyor.

The storage bins of this tipple have a capacity of some fourteen hundred tons of slack, screened and run of mine coal. The tipple and retarding conveyor are capable of handling some thirty-five hundred tons of coal each working day of ten hours.

The machinery of the tipple and conveyor is run by electricity furnished from the Company's new power plant erected during the strike last summer, the tipple, conveyor and power house all forming part of the entirely new plant. The Company is erecting the old plant having proved to be entirely inadequate to handle the ever increasing output of the mine.

In addition to their new tipple, conveyor and power house the new plant includes a wash house of the latest type for the use of the mines, sanitary and well lighted mine offices, car barns as large as in the Pass, a lamp house and a spacious carpenter's shop. Everything that has been built or installed is the latest thing in mine equipment and the new plant as a whole is one of the finest, most complete and most up-to-date in Western Canada.

The coal mined in Hillcrest is shipped to all parts of Western Canada and the Western States, being shipped as far North as Saskatoon and Edmonton, as far east as Manitoba, while in the other direction Hillcrest coal is shipped as far South as Portland, Oregon. The Canadian Pacific Railway takes a large quantity of Hillcrest coal, all it can get, in fact, and it is worthy of note that this corporation uses Hillcrest coal for their locomotive fuel only, sending it to their various Calgary, Saskatchewan, Red Deer, Moose Jaw, Swift Current, Medicine Hat, Lethbridge and Maceled. The Railway employs an expert assayer who tests every car of coal that is shipped O.C.S., and the fact that during the two months he has been analysing the coal, not one car has been analysed as containing less than 12,000 B.T.U. is sufficient to prove that the coal mined at Hillcrest is what is claimed for it—the best coal mined in the Rocky Mountains.

George Brown has taken over the management of the dining room at the Union Hotel at Hillcrest this week. Since his arrival in Hillcrest some months ago George has proved himself to be a thorough practical business man and his rule is making no mistake in turning over this all important portion of the management of his hotel to George. The Union Hotel has always been one of the most popular houses in the eastern Pass and with the change in its management it will be the improvement will tend to make this hotel the best of them all.

The Lord High Admiral of the Side-steps and the Most Mighty Minister Plenipotentiary of the Orful Order of the Ginkgus visited Hillcrest last week and barely escaped with his life. His trail back to the backwoods village from whence he had ventured under cover of darkness was easily traced by beer bottles thrown unwillingly aside by him to facilitate his escape from the wrathful Hillcresters. Presumably he managed to accomplish his return to his lair in safety, but the trail has been laid with 40 per cent against his return, which we hope will be in the near future. By the way, we would like to have inside information as to how the Order of the Ginkgus reconcile their statement of a few days ago to the effect that teams in the Alberta Pass League really ought to play their members only and not outsiders, to the ruling of the committee of the League last Friday night when it was decided that Burnis must play Blairmore again on this account, the infallibles having played a man against the rules of the League who presume that since he is golden and more so preferred than him gold, yes, much fine gold—in this particular instance.

Challenge

Thomas Tapella, of Bellevue, hereby challenges any middle weight of The Pass to a boxing bout to be staged in a public building on any date to be arranged.

D. A. AYKEN, Manager.

Buy it now. Chamberlain's Colic, Cholera and Diarrhoea Remedy is most certain to be needed before the summer is over. Buy it now and be prepared for such an emergency. For sale by all dealers.

Happenings in and Around Frank

Milton Robinson, of Cowley was a business visitor in town on Tuesday.

John Herron, ex-M.P., was a visitor here the early part of the week, and his many friends gave him a cordial reception.

The Imperial hotel is being gutted out, and the large plate glass windows have been removed from the front. The store formerly occupied by A. I. Blais is also being stripped.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed you should become both healthy and beautiful. For sale by all dealers.

On Monday evening a meeting of citizens was held to hear certain propositions regarding the purchase of lots on the new townsite and removal thereto. The coal company arranged to sell lots according to priority—the first come first served.

A large number of sports enthusiasts attended the Blairmore-Hillcrest football match on Monday evening at Hillcrest, and report one of the best and most exciting games of the season. Blairmore was defeated by good clean play and took her medicine fine.

Carver Seems to be Afraid of C. Burrows

Charlie Carver of Michel, B.C., who lays claim to the welterweight championship of Canada, has never issued a challenge to Charlie Burrows, the old war horse of The Pass, and unless he does and wins from Burrows the Michel man has no right to pretend to be the best welterweight boxer in Canada. Burrows says that he has tried time and again to get a bout with Carver but the latter has always declined to defend himself against the local man. Whether he makes the same excuse that Tommy Burns made when challenged by Bob Fitzsimmons—that the challenger is too old—we do not know, but one thing is certain that Carver would be kept busy to prevent himself from being knocked out by Burrows.

Lethbridge Exhibition

The Lethbridge exposition grounds are an extremely busy place at present, a number of men being engaged under the various contractors in putting up new buildings and getting things in shape for the fair which will be held this year from August 10 to 21.

Buildings include an administration building, a poultry house, a dog house, a swine stable, a sheep stable, a lot of new stables for horses and cattle, a suitable entrance and various other improvements, all costing some \$25,000.

The result will be that Lethbridge will have one of the best equipped grounds in the west, and will be in a position to take care of the exhibitor in a satisfactory manner.

The premium list has been issued, large premiums being offered in all lines and there is a good chance for many a farmer in the district to make an exhibit that will be a credit to the district and will also win for himself some of the good money that is being offered.

Premium lists and other information can be obtained from the manager, J. W. McNeil, Lethbridge.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

Blairmore Lodge, No. 68, meets in their Hall, 5th Victoria St., every Tuesday at 8 p.m. Visiting brethren welcome.

A "Too-Late" Stamp

The only "too-late" stamp ever issued appeared in Victoria in 1855. It bears the head of Queen Victoria, as do most of the stamps of the colony. The body of the stamp is in deep blue crossed by two bands of green. The upper band bears the words, "Too late" while the lower has the value or fee "Sixpence." The "Too Late" stamp represented a tax or fee in addition to regular postage upon letters that were received too late for the regular mail. In all large maritime cities much mail is sent out on outgoing vessels. In early start periods a fast sailing vessel, or, in fact, any sailing vessel, was often chartered by the carrying of the mails. The heavy regular mail to go by vessels or steamer on any specified day was sorted and dispatched in wagons from the post office some hours before the scheduled time of sailing. In the supplementary mail was afterwards sent by special messenger. The mail consisted of such letters as arrived after the regular mail had closed, but were of sufficient importance to warrant the sender in the payment of a "too late" fee, which in Victoria was fixed at sixpence. This supplementary mail was kept open until within a short time of the sailing hour, the time depending upon the distance between the post office and the dock of the vessel.

Probably got off.

Approves of certain unfounded charges of drunkenness among the naval cadets at Annapolis. Admiral Dewey at a dinner in Washington told a story about a young sailor.

"The sailor, after a long voyage," he said, "went ashore in the tropics and it being a hot day, he drank in certain tropical bars, too much beer. As the sailor lurched under his heavy load along a palm-bordered avenue, his captain hailed him indignantly.

"Look here," the captain said, "suppose you were in such a condition as you're in now, what would you do to me?"

"Well, sir," said the sailor, "I wouldn't condescend to take no notice of you at all, sir."

Once More

The minor dropouts pick a star started with bulging eyes at the fellow man who strove at the implement had just been bare. For minute he was struck speechless. Then, like one gone mad he gave forth a scalding shout.

His mate came running from the mouth of the tunnel.

"What is it?" he cried breathlessly. "Gold!" yelled the other. "Pure gold!" Tons of it.

"Is that all?" exclaimed his partner disgustedly. "From the hulla-balloo we were makin' one would think ye had dug into a firkin o' butter!"—Judge.

Tom: "I told her father that I expected to inherit several pieces of property."

Dick: "What did he say?"

Tom: "He said that deeds speak louder than words."

A Trial Treatment of Cuticura Soap and Ointment Free to Skin Sufferers

If you, or someone dear to you, are suffering the itching, burning, sleep-destroying torments of eczema or other cruel skin eruption, with its embarrassing, unsightly disfigurement, if you have tried all manner of treatment, no matter how harsh, to no avail, and have all but given up hope of cure, write to-day for a liberal sample of Cuticura Soap and Ointment. Thousands of skin-tortured sufferers, from infancy to age, have found that the first warm bath with Cuticura Soap and gentle application of Cuticura Ointment bring instant relief, permit rest and sleep, and prove the first steps in a speedy and successful treatment. Address "Cuticura," Dept. 10M, Boston, U. S. A.

WHAT TO DO RIGHT NOW

Practical Suggestions by W. J. Glass, Macleod, Alberta

(Written especially for the International Dry-Farming Congress Bulletin, "Dry-Farming.")

In answer to your inquiry as to what to do on the farm right now, will say now is the time to get busy and work, get our seed into the soil (especially wheat), so that it will be matured before the frost.

We should have done our letter writing and sowing during the first month. Nevertheless, I will give a few hints as to how I work my land to prepare a seed bed and preserve the moisture, and also my opinions as regards the best periods to sow different cereals.

We all know that practically no fall plowing was done last year, therefore our land has either to be plowed this spring, or just disc and drill. On account of such a short time and so much work to be done, and plowing taking longer than discing, the question arises: "Is it necessary to plow or will discing do?"

Plow Every Year

I am a firm believer in plowing every year, except on new land which has only had one crop taken from it and is not well rotted. Land in this condition and clear (free from weeds) could be disc and plow a couple of times and seeded with fairly good results, although, as a rule, one does not get as large a yield.

Immediately after plowing use the packer, the same day if possible; the sooner after plowing the better. This is to keep the land from drying out.

If you haven't a packer, use a float. A float is a simple affair made by bolting planks together, letting the second lap the first, and so on until you get the required size.

Of course, if you find your float is not heavy enough, you can weight it down with stones—Oh! I forgot, not many farmers have stones on their land; well, old iron or anything; with weight will do.

Methods of Cultivation

Now, as to the cultivation needed after packing or floating before drill, it all depends on condition of the soil.

If very lumpy, disc, if not, the harrow will do. It should be cultivated until no lumps remain bigger than a hen's egg.

I would not in any case advise using any implements after seeding on level land, as this will leave the surface of the crown smooth, as this aids evaporation, and also leaves the land powdery on top, and the wind is likely to blow the soil.

As to the time of seeding, I believe from April till the end of the first week in May it is safe to sow wheat.

After that date I would not sow oats or barley until the end of May, and that not seeded by that time, I would summer fallow. I prefer to sow my oats and barley the last week in April or the first week of May and be through seeding by May 15th.

Summer Fallowing

Just a word about summer fallow. Do not leave your summer fallow too late, but plow in June. By leaving the weeds grow they will exhaust the soil, and the soil will be left in a bad state.

Be sure and treat your grain for smut. I treat with formalin at the rate of one pound to 35 gallons of water. I have never had any smut, but I treat as a preventive. If you grain is smutty, make your solution stronger.

The system I follow is to pour 4 or 5 bushels of grain in a wagon box, sprinkle with formalin and garden sprayer, let the solution over the grain and stir until kernels are all moist, then shove to the front of the wagon box; then another lot, and so on. Cover up with a canvas for a couple of hours, and then spread out to dry. Haul the wagon out to the field and fill the drill from the wagon.

As I said at the beginning, this is a busy time, so goodbye.

HISTORIC TOWN VANISHING

First Capital Being Pulled Down by Mississippi

Within a few months more the last traces of old "Kaskasia," first capital of the State of Illinois and one of the first settlements of the white man in the Mississippi valley, will have disappeared. The river Mississippi is steadily pulling down the remaining land that was once a part of the town site. All that remains is an old building that was once used as a "smokehouse" by some of the citizens. Houses, powder magazines, stockades and fortifications have all slid into the river.

Kaskasia is still on the maps of Illinois, but the original town is at the bottom of the river. The best efforts failed to check the river's steady advances. A few years ago the Kaskasia river, usually known as the Kaskaskia, began to cut into its western bank a mile or so above the point where it flows into the Mississippi. At this point the river is very narrow, and the land that divided the two currents. Finally the big river cut entirely across the spit of sand and rock that had separated the two and old Kaskasia became an island.

One hundred and fifty years ago the site where the smokehouse still lingers was the seat of the largest city in the west of the Allegheny mountains. In a few months more the last of the old town will have slipped into the river and the island that was cut off from the mainland will itself disappear.

"You must not talk all the time. Ethel," said the mother who had been interrupted.

"When will I be old enough to mamma?" asked the little girl.

Earnest Love

"In Chapter I, he shoots at her five times. And that girl—"

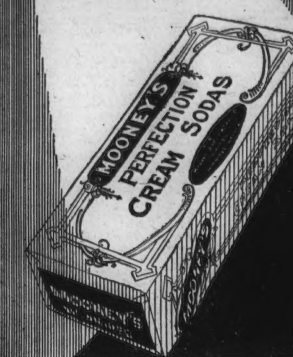

"Yes, but then novels are misleading. Mayne. There isn't no earnest love like that in real life."

"Kindly return my look of hair."

"All right. Do you want the dark lock or the one you gave me when you were a blonde?"—Washington Herald.

LET MOONEY DO IT

The Only Chance
"I think, dear, I'll make my will." "Why should you do that? You haven't anything to leave." "I know, but it seems to be the only way in which I can have a will of my own."—Fitzburg Post.

Shakespeare and Denver
A man named Taber, who had acquired considerably more of worldly goods than he could carry, was in an opera house in Denver. He spared no expense in fitting it out with costly moieties and luxurious furnishings. And as a last word in decorations the architects decided to run a frieze around the proscenium embellished with the names of famous lights of literature and drama. Milton, Garfield, Edwin Booth and Ibsen were all there, and in the very center was the name of William Shakespeare.

"Taber came into the opera house one day for a final inspection, and spotted the frieze."

"What's the name doing up there?" asked Taber?

"William Shakespeare," replied the architect.

"What did William Shakespeare ever do for Denver? Take his name down and put Taber's in its place."—Washington Post.

"Thomas," said mother, severely, "some one has taken a big piece of finger cake out of the pantry."

"Tommy blushed guiltily. "Oh, Thomas," she exclaimed, "I don't think it was in you!"

"It ain't all," replied Tommy, "part of it's in Elsie."

Knew Him by His Order
An English actor was the member of a company snowbound in the Sierra, while en route from California to the East. Before their train was dug out by the snow plough they had been reduced to eating the condensed fare of the railroad laborers and got little enough even of that. So that they all ate a magnificent lunch when the train reached a small station at which there was a restaurant, and the Englishman went in to find a seat at a table. "Bring me in a hurry" he said to the landlady a burly Western man, "a pot of brose steak, some deviled kidneys, a brace of chops, plenty of vegetables."

"I'll get it right away," said the landlady, and she hurried to the kitchen. The landlord stuck his head out of the dining-room door and yelled to somebody in the rear apartment: "Say, Bill, tell the land to play 'Rule Britannia,' the Prince of Wales has come."

"Rub it in for Lane Back—A break rubbing with Dr. Thomas' Electric Oil will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in the pain comes out and there are ample grounds for saying that it's magic, as it is."

She Was Willing
The man was one of the sort that women like because of their awkwardness, their ugliness and their were too big for his legs, though his legs were enormous. His chest was too big for his head, though he wore a 7 1/2 size hat.

He was like a St. Bernard pup, but older than any young dog.

He had never been at a regular dance before. The girls looked up delighted flowers to him, and he hardly dared to touch one of them. He looked to the girls like a new idea—and they hoped he'd arrive. He did, after a minute or two. He waded across the floor, made a stand in front of the little girl, and said, "I don't dance with you?"

"Can I dance with you?" She was rattled, but she answered with a smile that said: "I don't know, but I like you well enough to let you try!"—Cleveland Plaindealer.

Just stop to think that Theodore Roosevelt is only one nine hundred and forty thousandth of one per cent of the population of the United States.—Albany Journal.

LESS TIME IN THE KITCHEN

MORE TIME IN THE FRONT ROOM

That's your reward if you let MOONEY'S BISCUITS take the place of the bread and biscuits you bake yourself.

You'll find MOONEY'S a delightful substitute for your own best efforts—the family will like them. Because

MOONEY'S PERFECTION SODA BISCUITS

come to you straight from the oven in the big Winnipeg factory.

They have that freshness and crispness only to be found in a newly-made biscuit. No other biscuit can come to your table as fresh from the oven as MOONEY'S.

Get the big package or the scaled tin—both of them damp proof, dust proof, dirt proof—and

"LET MOONEY DO IT"

Not only this but these D as well

DON'T think that concrete can be used only for building bridges, silos, walls and walks; because if you do, you will probably overlook all the places where you can use it now.

T. L. Irving, of North Georgetown, Quebec, used concrete for 81 different purposes on his farm in 1911.

There are probably at least a dozen profitable uses for concrete on your farm at the present moment.

Perhaps you haven't thought of concrete, except for a new barn, or a silo, or some other big improvement, for which you aren't quite ready yet. That's why you should read

"What The Farmer Can Do With Concrete"

It will open your eyes to the hundreds of uses that other farmers have found for this material. In plain language, and with the aid of many photographs. It explains just what these uses are, and how they can be applied to your farm.

Concrete can not only be used for all the purposes to which wood has been applied, but also many others for which wood would never be suitable.

It is not only a building material; it's a "handy" material, something that you'll grow to depend upon more and more, as you learn its possibilities.

So write for this book. You'll find it isn't a catalogue, nor an argument for you to buy concrete. Every one of its 160 pages is devoted to telling you what farmers have done and can do with concrete.

IT'S FREE FOR THE ASKING. Your name on a postal, or in a letter, will bring the book to you by return mail. Or use the coupon. Address

CANADA CEMENT CO., Ltd.

They Cleanse While They Cure.—The vegetable compound of which Parmelee's Vegetable Pills are composed, mainly dandelion and mandarin, clear the stomach and intestines of deleterious matter and restore the digestive organs to healthful action. Hence they are the best remedy for indigestion available to-day.

A trial of them will establish the truth of this assertion and do more to convince the silling than any words can be written of these pills.

No one need endure the agony of corns with Holloway's Corn Cure at hand to remove them.

SEND ME YOUR BOOK

The Grand Trunk Pacific announces that a through passenger service between Regina and Winnipeg will be put on by that company next month.

It has been stated that particulars with regard to the new Regina station will be made public in the near future. A sub-station on the north side of the city will soon be a necessity but no decision as to location has been reached as yet.

Wife—"My husband is not well, I'm afraid he'll give out." Wife's Mother—"Well he may give out. He certainly never gives in."—Town Topics.

"Georges, I'm very much worried. The landlord says he is going to raise the rent."

"Is he? Then why do you want me to try trying to do it?"—Baltimore American.

WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with the same weakness sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an alternative extract of roots, made with pure glycerine, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Lavalin Hotel and Lavalin Institute of Buffalo, N. Y.

Mrs. LIZZIE M. HENNINGER, of Lincoln, Neb., 509 "O" St., says: "I send a testimonial with much pleasure to that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles for years after taking Dr. Pierce's Favorite Prescription, which I found myself very much improved. After taking three bottles, and using Dr. Pierce's Lotions and Pills, I found myself on the road to recovery. I was in poor health for five years but now I am cured."

Many women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial.

Doctor Pierce's Pleasant Pills regulate and invigorate stomach, liver and bowels. Sufferers consulted, try granules.

Mrs. HENNINGER.

=: THIS IS YOUR := OPPORTUNITY

It is by taking advantage of OPPORTUNITY when it comes that fortunes are made
Here is a chance FOR YOU TO GET IN ON THE GROUND FLOOR of one of the BEST PROPOSITIONS in Alberta.

...Blairmore Brewing & Malting Company, Limited...

A Company incorporated under the laws of Alberta with a capital of

... ONE HUNDRED THOUSAND DOLLARS ...

For the manufacture of BEER and BEER EXTRACTS and all kinds of TEMPERANCE DRINKS

The Company are offering for public subscription

SEVEN THOUSAND SHARES

of the Capital Stock at Par Value \$5.00 Per Share

The purpose for which these Shares are offered is to pay for a portion of the necessary equipment for the Brewery. The Company has already purchased the machinery necessary for brewing, part of which is already installed, and we expect to have the Brewery in operation in a very short time. The Company has been fortunate in securing one of the BEST AND MOST UP-TO-DATE BREWERS on the Continent who is at present superintending the installation of machinery.

WATER

The Company owns its Water Rights, with an ample supply of water for all purposes, brought direct from the spring to the works by pipes under a pressure of 150 pounds. An expert Brewer from Milwaukee said that the water asset of this Company was worth its total Capitalization.

Water Analysis for Brewing Purposes

Per cent. in 100,000 parts of water:

| | | | |
|---|-------|----------------------|-------|
| Total hardness of Carbonate of Lime | 17.57 | Nitrates..... | .70 |
| Loss on Ignition (organic matter and Dioxide) | 10.10 | Chlorine..... | .60 |
| Free Ammonia..... | .02 | Phosphoric Acid..... | trace |
| Nitrites..... | none | Sulphates..... | 3.00 |

SITUATION:

Blairmore Brewery is situated in the TOWN of BLAIRMORE. A Town that is rapidly growing in importance as an industrial centre. From Blairmore it is possible to reach by wagon the Towns of CARBONDALE, COLEMAN, FRANK, HILLCREST, BELLEVUE, LILLE, PASSBURG, and several other small Mining Camps, all within a radius of about four miles, thus saving a great amount in railway freight. The estimated population of these towns is about 12,000, and the nearest brewery West is about 30 miles and the nearest to the East about 100. This as any one can see gives Blairmore Brewery a decided advantage over any of its competitors, for the trade of The Pass.

PRESENTATION OF STOCK

In presenting this Stock to the public we firmly believe that we are presenting Stock that will merit the attention of the most conservative investor. We advise you to investigate this proposition at once, as we firmly believe that this stock will be sold in a short time and after this amount is sold the price will be at least double what it is at present. Prospectus and any other information will be sent on application. Send all monies to

THE BLAIRMORE BREWING & MALTING CO., LIMITED,
Blairmore, Alberta.

Editorial Notes

The steps taken by the Blairmore Board
of Trade in getting read connection with
new centres are really commendable and
should be supported by every citizen and
business firm of the town. Such con-
nection will mean much to the town of
Blairmore as it will mean first the divi-
sion of much business here and eventu-
ally assist in establishing Blairmore as
the commercial centre of The Pass.

A paper in B.C. takes pleasure in pub-
lishing an advertisement for itself in
which it announces it is doing printing
for all the leading business places between
Coleman and Lundbreck. That paper
should remember that the only leading
business place of the town who will send out
of town for material that could be procured
in town, are fastened to the wrong
end of the business, and "leading back-
ward" is sure to be their motto.

A well known Blairmore citizen, to
whom we are all supposed to look as a
man devoted to the interest of the town
and its citizens who have sanctioned their
confidence in him by placing him in an
important office, went as far last week
as to send an order out of town for goods
that might have been procured in town,
and all to satisfy a grudge against an-
other party. There is always a better
means to settle personal grievances than
by killing two men to satisfy spite against
one.

Monthly School Report

The following is the report of attendance
for Blairmore Public School, during
the month of June, 1912.

Junior grade I.—Number enrolled 45,
average attendance 47.25, percentage of
attendance 82.73, late 11. Miss Barnack,
teacher.

Senior Grade I.—Number Enrolled 39,
average attendance 38.34, percentage of
attendance 98.30, late 6. Miss Ogilvie,
teacher.

Grades II and III.—Number enrolled 41,
average attendance 40.80, percentage of
attendance 99.28, late 3. Mrs. Page,
teacher.

IV. and V.—Number enrolled 31, average
attendance 28.8, percentage of attendance
92.9, late 3. Miss Fulton,
teacher.

VI, VII. and VIII.—Number enrolled 14,
average attendance 12.67, percentage of
attendance 90.5, late 0.

M. E. O'BRIEN, Principal.

The July Rod And Gun

"Reminiscences of a Sojourn at a
Hudson 'Pay Post' by Frank
Houghton, opening number in the
July issue of Rod and Gun in
Canada (W. J. Taylor, Limited,
Publisher, Woodstock, Ont.) contains
an interesting comparison
between the characters of the white
man and the Indian, illustrated in
the almost quixotic honesty displayed
by "Waban Annuung."

When temptation, in the guise of
imminent starvation, might well
have proved—overpowering. A
profusely illustrated chapter of the
popular continued article. "The
Culture of Black and Silver Foxes"
is another feature of this issue
which contains many stories and
articles of outdoor life in the various
Canadian Provinces.

Edmonton Exhibition

Great preparations have been made
for this year's exhibition, to be held
in Edmonton August 12th to 17th.
The Directors have erected a new
manufactures' building and ma-
chinery hall, and are adding extra
space to the grounds for the accom-
modation of exhibitors of farm ma-
chinery. \$30,000.00 has been added
to the prize list this year, making a
total of \$45,000.00 in prizes and
purse to be competed for. New
classes have been made for fine arts,
photography, women's work and
school children's work. The facilities
for unloading and loading stock
have been greatly improved by ex-
tending the spur line along the east-
ern side of the grounds, and provid-
ing new unloading platforms for
horses, sheep and swine. The exhibits
will all be catalogued this year, and
for this purpose it is necessary that
all entries should be received no
later than the 29th of July.

Happenings in and Around Blairmore

Mrs. J. M. Carter is visiting
friends at Lundbreck.

James Serra and wife, of Cole-
man, spent Sunday with friends in
town.

Several parties scaled to the top
of Turtle Mountain on Sunday
afternoon.

John Herron, of Pincher Creek,
spent the early part of the week in
town.

Harry Hunter has taken up an
apprenticeship at the office of this
paper.

Dr. Wright, of Pincher Creek,
spent Saturday in town, attending
to dental work.

All the local grocery stores are
at present well stocked with fresh
ripe fruits of all kinds.

W. J. Budd, vice-president of
the Keystone Cement Company,
was in town last week.

"A Texas Rancher" appeared at
the local opera house last night
and reappears tonight.

Mrs. Latta, of Cowley, spent
several days with friends in town
and returned home Wednesday.

The concrete foundation for the
new addition to the public school is
being placed by E. Morino, con-
tractor.

Mr. Ferguson, inspector of
Southern Alberta telephones, was
in town last week on a tour of in-
spection.

Strawberries are fairly plentiful
in the north hills and several par-
ties were out picking them on Sun-
day last.

F. E. Hinds returned from Mon-
tana on Saturday, where he had
been touring by motor car for the
past couple of weeks.

D. C. Drain, proprietor of the
Blairmore hotel, returned on Sat-
urday from a visit to Edmonton
and other points north.

Rev. J. F. Hunter went to Dia-
mond City on Saturday, where he
officiated at the Baptist church.
He will return to town this week
end.

Rev. Pearson, of Passburg, offi-
ciated at the Presbyterian church
last Sunday morning and evening,
and will supply again next Sun-
day.

Miss I. Latta returned the early
part of the week from Cowley,
where she had been enjoying
several days' lay-off from the city
excitement.

The Coleman Bulletin is adver-
tising for a girl of 16 years to work
in office. Sure! Come to Blair-
more. All the girls here are exactly
sweet sixteen.

Feigned strawberry picking com-
bined with trout fishing upon
Sunday, is a combination that
doesn't quite meet the approval of
the mounted police.

Owing to congestion of night
school quarters, Rev. W. T. Young
is obliged to seek a larger building
in order to properly carry on his
work among the foreigners.

Don't forget the big sale at the
Crow's Nest Flour & Feed Com-
pany's premises. Flour, hay, oats,
feed, butter, etc., are going some.
Sale prices only last till Saturday.

The moving picture shows put
on every other night at the opera
house, by Messrs. Travers, are
drawing good crowds. The pic-
tures are about the finest yet shown
in town.

Work on the Cosmopolitan hotel is
progressing well, and the roof is
now crowning Blairmore's finest
building. The work of installing
the heating apparatus will shortly
commence.

We have been fortunate in
securing an able correspondent to
represent that division of Blair-
more South known as Board's
Camp. Our correspondent has
undertaken to supply us with a
good batch of interesting material
weekly.

Mr. Fleutel, ex-managing direc-
tor of the West Canadian Col-
lieries, Ltd., arrived in Blairmore
on Sunday, and has since been
looking over the company's prop-
erties around this section of The
Pass.

The Court of Revision sat at the
council chamber on Tuesday last
to consider disputes against recent
assessments. Court adjourned
till next Tuesday when they will
meet at 10 a.m. in the council
chamber.

Rev. W. H. Groom, of Diamond
City, occupied the pulpit of the
Central Baptist church both morn-
ing and evening of Sunday last.
While in town the rev. gentlemen
was the guest of Mr. and Mrs. F.
M. Pinkney.

One of the chief features at the
Winnipeg exhibition last year was
a man riding on a hog. Blair-
more's wonders beat that all hol-
low, for it is a common play-thing
here to see a man on horseback
riding on a "hog's back."

Several "rats" were seen near
the Hog's Back on Sunday last.
These animals always escape the
vigilance of the police, but the keen
eyes of some well known citizens
are good marksmen, and we may
yet announce a complete extinc-
tion.

Tom Appleby has returned to
town after an absence of several
months during which time he has
been representing both sides of life
and politics appertaining to the
town of Blairmore. We are pleased
to welcome him back to "the town
he's in."

Judgment in the case of the
Justice vs. Pogli was delivered by
Justice Gresham on Monday. For
having on his premises wine that
registered considerably above proof,
Pogli was obliged to strengthen
the city treasury with the moderate
sum of \$100 and costs.

J. D. S. Barrett, ex-editor of this
journal, went to Pincher Creek
Monday for dental consultation.
Mr. Barrett leaves the latter part
of this week for his home in New-
foundland, and en route thereto
will visit some of the principal
cities of Uncle Sam's domain.

We beg to call attention to the
big advertisement of the Blair-
more Brewing and Maltng Co., on
another page of this paper. The
ad contains no exaggerations, but
simply plain facts, and explains
very concisely the proposition of
the new company and enterprise.

A good attendance greeted "Be-
verly of Granstark" at the opera
house on Friday night last. The
negro characterization of Aunt
Fanny was about the most amus-
ing feature of the show; but the
work of "Beverly" and the "Prin-
cess" was also of a good character.

Some ardent anglers have land-
ed some excellent fish the past
week, but all complain that they
are duty bound to consign to the
water from whence they come all
fish under nine inches in length.
There's a limit to the length of
fish, but no limit to the "wait."

We would call attention of our
readers to the advertisement of
Mr. Cooper elsewhere in this issue.
Mr. Cooper is a Toronto tailor, and
the work being turned out by him
in Blairmore is sufficient guar-
antee of his ability. Don't send
your orders out of town but show
your appreciation by patronizing
the local man.

Don't miss the big boxing exhi-
bition at the opera house on Sat-
urday night. Both Burrows and
Granger are determined to make
this exhibition a treat and the best
ever staged in The Pass. Jim
Burrows and Dick Marshall will
stage a five-round preliminary,
which alone should be worth the
admission fee. Another prelimi-
nary will also be put on. Prices:
Ringside \$2.00, reserved \$1.50,
general admission \$1.00.

The Blairmore Enterprise is just
as welcome to many homes in
town as the glorious chinook winds
in the frigid month of January.

Beard's Camp Notes

We are pleased to learn that the Socialist M.P. for the Rocky Mountain constituency was so warmly entertained at the Calgary lock-up. None are too good to learn.

On Friday night last Mrs. McConnaghey gave birth to a kid, or (using the modern slang) a bouncing baby boy. However, both father and mother are doing well.

Everybody are staying indoors lately to avoid being spattered with ink when the Blairmore mayor attaches his signature to the cheque which stands between the fire hall and the town.

Ha, ha, ha! There's no end to the Conservatives passing through here lately—all disgusted over the results of the Saskatchewan elections and taking to the woods where they might cool off in quietude.

We feel assured that His Highness the Duke of Connaught could not give us anything but "stump speeches" on his visit here in October. We would rather let him wait till 1940, when Ned gets his ears cleared up.

This is said by the boys to be the hunting season. Ladies' hats should not be hung on trees near where "soft-nosed cartridges" are being used, or where Sparks are flying around. Blairmore ladies please take notice and go "way back and sit down."

Uncle Ned has been busy the past three weeks decorating the mansion with evergreens and feathers and plumes obtained from the Blairmore millineries. Ned is very tasteful as a decorator, especially for such an occasion as the visit of the Governor General.

At a meeting of the city fathers on Sunday night it was decided to send a police patrol to certain parts of the Hog's Back, where it is said some people are getting more stuck-up than they should be. We are in sympathy with the council's move in this matter, for we are desirous of being humble at whatever cost.

Our Methodist potentate states that someone was employed on Sunday blasting near the dam that supplies Blairmore with the only substitute for Alberta's Pride. His Eldership intends to take the matter up with the Lord's Day Alliance committee at once, and be sure that no dam work will be carried on on Sundays in the future.

The smoke from the proposed Keystone cement works in Blairmore keeps the girls at the palace busy cleaning windows. Practice makes perfect, and as Jane anticipates entering into partnership with a Nova Scotia chap who recently arrived in Blairmore, she considers it wise to practice on the "imaginary" now in order to be proficient in future.

Ned was favored with another visit from the following representatives of Blairmore professionalism on Sunday: Doc Baker, Chief Irwin, bank manager Tait and Brisco's skally wag. They did not stay to supper, although Uncle Ned urged upon them to have some fried Indian pinkies with spruce sauce. They report the keg in the corner of the dining parlor still dry.

A petition was sent to the Dominion government requesting that they take immediate steps to "gopher" the hills. In the writer's humble opinion, the bigger part of the Alberta Liberal administration should "go for" the hills. Anyway, we have not been molested by the prowling of the wild dogs lately, and are fearing they have all taken out fishing licenses, having learned that licenses were being issued to every Tom, Dick and Harry.

A general meeting of the Fault Finding Club was held in the upper flat of the camp on Saturday night with a view to exonerating a certain young lady of Lundbreck from the blame of travelling at the

Pastor's Don'ts

For Wives

"Put these up in your wife's mirror where she can see them every morning," said the Rev. W. W. Buehard, Rockefeller's pastor of the Euclid Avenue Baptist church, in introducing "Ten Don'ts for Wives." His "don'ts" are as follows:

1. Don't marry a man for a living but for love. Married without money is better than money without husband.

2. Don't overdress or under-dress. Common sense is sometimes better than style.

3. A wife with a hobble skirt and a husband with patched trousers make a poor pair. A woman can throw more out of a kitchen window with a spoon than a man can put into the cellar with a shovel.

4. Don't think that the way to run a house is to run away from it. It is wrong to go around lecturing other women on how to bring up children while you are neglecting your own.

5. Don't tell your troubles to your neighbors. They have enough of their own. Fight it out with your husband if it takes all summer.

6. Don't nag. The saloonkeeper is always glad to welcome your husband with a smile.

7. Don't try to get more out of a looking glass than you put into it. Nature's complexion is better for women's beauty than man's powder and paints.

8. Don't make gamblers and drunkards out of your children by running whist parties for prizes and serving punch with a sick in it.

9. Don't forget to tell the truth, especially to the conductor about the age of your child; honesty is worth more to him and you than a nickel. A boy who is 8 years old and 6 on the ears will soon learn other things that are not so.

10. Don't forget that home is a woman's kingdom, where she reigns as queen. To be a mother of a Lincoln, a Garfield, or a McKinley is to be the mother of a prince.

For nervousness of the muscles, whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all dealers.

Control of Insect

Pests in Canada

The Division of Entomology of the Experimental Farms Branch of the Dominion Department of Agriculture Ottawa, has recently issued a bulletin by Dr. C. Gordon Hewitt, Dominion Entomologist, on "The Control of Insect Pests in Canada."

An account is given of the history of the war against insect pests in Canada and of manner in which insect pests have invaded the country as it has been gradually opened up and cultivated. The manner in which the Dominion Provincial governments are endeavouring by legislation and other means to prevent the introduction of insect pests into Canada and the increase and spread of those pests already here is described. An interesting summary of the various lines of work undertaken and carried on by the Division of Entomology at Ottawa is given and the general public will no doubt be surprised at the many problems which come within the scope of the entomologists who are called upon to deal with insects in their relations to all the varied activities of man; insects affecting farm crops, fruit growing, forest and shade trees; insects attacking man's possessions and infesting houses, attacking domestic animals and finally afflicting the health of man. All insects, however, are not injurious and the work of the entomologist includes bee and bee keeping and the study of parasitic and other enemies which may be of assistance in obtaining control of insect pests.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all dealers.

rate of 20 1/2 miles an hour. It was the opinion of all the gentlemen present that no young lady would ever pass by a town that contained such fine looking young men as Burnis at anything swifter than a parlor-lounge speed. By a vote of 92-7 the young lady in question was exonerated from the charge.

Those Applying First Will Get Their Choice When Survey is Completed

This Quarter Section has been purchased from the Calgary and Edmonton Land Co. by

Joseph Grafton
J. H. Farmer

A RARE OPPORTUNITY FOR LIVE INVESTORS

Lake City

Is the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous fiords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for hunters who desires to outlive the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monachy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold quartz, coal, iron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yachts will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

Monthly Meeting Board of Trade

Road Connection With Newly Raising
Towns Chief Subject
of The Session

The regular monthly meeting of the Blairmore Board of Trade was held in the council chamber on Monday night, the following members being present: D. A. Sinclair, president; T. B. George, secretary; L. P. Roberts, H. E. Lyon, L. H. Putnam, J. D. S. Barrett, H. Tait, W. A. Beebe, L. Dutil, R. M. Brisco and W. J. Bartlett.

Minutes of previous meeting were read and adopted. A communication was received from the Crows' Nest Flour & Feed Co., asking the Board's support to a petition they proposed presenting the town council with a view to securing permission to place their car scales somewhere near the street line, instead of their present inconvenient location. Secretary was asked to acquire from the C.N.F. & F. Co., particulars such as location, conditions, etc., and to further report at next meeting of the Board.

An enquiry bulletin was received from the Lethbridge Board of trade and ordered filed. Forms were received from the C.P.R., to be filled out with data regarding our natural resources, for use by the Department of Natural Resources. Secretary was instructed to have forms filled out with all necessary information.

L. Dutil asked if the Board had taken any steps in connection with the present excessive parcel post or express tariffs, and this matter came in for considerable discussion.

The matter of a merchants' protective union was also brought up, and most of the members present were of opinion that such an organization would be of great benefit to the business people of Blairmore, and thought that a well compiled "black list" of Bad Pays would assist the merchants materially and relieve many pockets of the dollar that honestly belonged to them.

The next matter to come before the Board was that long eye-sore that has deprived Blairmore of a two-sided commercial street. Mr. Putnam suggested that the matter be taken up with the C. P. R. at once, and that a proposition of give-and-take or buy-and-sell be made with a view to getting them to move their line some distance south, so as to permit Blairmore making use of the south side of Victoria Street. After considerable discussion Mr. Barrett moved and Mr. Brisco seconded that a committee comprising L. P. Roberts, L. H. Putnam, and W. A. Beebe, be appointed to examine the property, draw up the necessary plans, etc., and present for the approval of the Board and recommendation to the town council for their concurrence in the matter.

Mr. Barrett made reference to the inconvenience caused by not having a night telegraph operator stationed at Blairmore.

Grade VI. Promoted to Grade VII.—Willie Patterson, Blanche Pinkney, Lella Purvis. On trial, Arthur Ennis, Ralph Rose. Teacher, Miss O'Brien.

The above lists are all given in Alphabetical order, not necessarily in order of merit. The Asterisks denote merit, i.e. those who led their class.

tary write the superintendent of telegraphs at Calgary and railway superintendent Urean at Cranbrook, urging upon them the necessity of stationing a night operator at Blairmore.

Carried.

The final subject of the evening was the matter of a road from Blairmore to York Creek. This matter was brought up by Mr. Lyon, who thought some steps should be taken in connecting the new town of York Creek with Blairmore by a graded road. All were of opinion that Blairmore was the nearest point of advantage for the workmen of York Creek to make a trade centre, and it was up to Blairmore to make a stride in this direction. A committee composed of H. G. Bigelow, L. Dutil, R. M. Brisco and L. P. Roberts was appointed to look over the grounds and report at next meeting.

Meeting adjourned at 10.45.

The Keystone

Cement Co'y

Issues Prospectus Outlining Proposed New Industrial Enterprise

The prospectus of the Keystone Cement Company has just been issued and contains full particulars of the objects, location, directorship, etc., of the new company. The company's head office is at Calgary, where the duties of secretary-treasurer will be handled by Mr. A. E. Stillman.

Mr. A. Muller, W. J. Pudd, R. Cross, C. A. McDonald, John George, D. Sutor, H. M. Budd and Thos. Frayer, all of whom are well known in the financial and industrial world, form the directorship, while A. A. Muller and W. J. Pudd are president and vice-president respectively.

The company has already purchased the plant of the Blairmore Brick Company, Ltd., and intend to operate that plant, which has a daily capacity of 20,000 bricks, in conjunction with their other vast enterprises.

The limestone properties of the company comprise what is considered the finest and most valuable in the whole Dominion, with a frontage of nearly 1500 feet and height of some two thousand feet above the level of the town of Blairmore.

The company take exception to quoting to the investing public the great advantages enjoyed by them in having all the necessary raw materials right at hand, which include rock, shale and coal within one thousand feet of each other as well as a flowing stream of mountain water alongside, which will enable the company to manufacture cement at a very low figure and complete successfully against the great cement combines.

The company proposes to install the most modern cement making machinery obtainable and to house same in practically fireproof buildings. All the machinery will be electrically driven, which will avoid shut-downs, as each machine or its unit will be driven by its own motor.

Careful estimates place the cost of the plant ready to turn out 1,000 barrels of cement daily at \$300,000, but the buildings erected will be large enough for a mill of eighteen hundred barrels capacity.

The addition of this mammoth plant to the industrial hives of Blairmore will mean much more than can be imagined by the casual observer. The payroll alone when the plant is complete and in operation will amount to about \$180,000 annually, while the amount of labor to be employed in construction of the plant will mean an even greater monthly pay.

With the commencement of this plant, Blairmore will experience a new era of general advancement and expansion, and the laying of the corner stone of the Keystone Cement Company's plant will be heralded with joy throughout the whole Crows' Nest Pass.

Public Notice

The adjourned meeting of the Court of Revision will be held in the Council Chamber on Tuesday, July 23rd, at 10 o'clock in the forenoon.

By order
W. L. Sings,
Secretary-Treasurer
Town of Blairmore, July 16th, 1912.
